

Stormwater Awareness Week

September 22 - 26, 2025

This week is Stormwater Awareness Week! Though many people know what stormwater is, they may not know the important role that it plays in the environment. Stormwater can easily be polluted by the activities we do around our homes and communities.

To learn more about stormwater and how you can help to protect it, go to the NHDES Stormwater webpage at <https://www.des.nh.gov/water/stormwater>.

Or visit the stormwater Information section on the Town's webpage at <https://www.londonderrynh.gov/203/Stormwater-Information>
