9 **property and Mike Fuller, Doug Fullers son and Julie Huss from the Derry**
10 **News.**

11
12 The Londonderry Demolition Delay Committee entered into public hearing at 7:00
13 PM on November 26, 2019 regarding the demolition of the house located at 5
14 Chase Road, Londonderry, NH.

15
16 Richard Canuel stated due to only one member present from the demolition delay
17 committee, he will be sitting as a member of the committee and acting as the chair
18 per the approval of the Town Manager Kevin Smith.

19
20 R. Canuel went on to discuss the purpose of the meeting and the criteria that needs
21 to be met to have the public hearing. The house at 5 Chase Road meets the
22 circumstances per the Zoning requirements. The property was viewed by R.
23 Canuel, S. Joudrey & A. Chiampa and it was determined there is some historical
24 significance to the structure. The 45-day stay is to give the committee the
25 opportunity to speak with the owner and the public who have any interest in the
26 property to try to preserve the structure or any part of the structure.

27
28 A Chiampa gave a history of the house, stating the Assessing record says the house
29 was built about 1742 and a monument in the southwest corner of the property
30 indicates it was owned by the Anderson family since 1720. Historical
31 documentation for this property, Wiley's Book of Nutfield, this land was the
32 second division of original Nutfield settler James Anderson and his son Samuel.

1 It's also mentioned in the first series of the Londonderry Society green books,
2 Volume 3, page 105 and other numerous pages. The Anderson family property
3 spanned both sides of Mammoth Road and both sides of Chase and Bockes Roads.
4 William Anderson was the last of 8 generations of Anderson family members to
5 live in Nutfield and 7th generation to live in the house. A. Chiampa stated there are
6 no other houses or families in Londonderry with that history.

7
8 R. Canuel asked how do we preserve the house with limited resources in which A.
9 Chiampa said she knows the struggle because of a house (Perry house) that was
10 taken down 10 years ago but not able to put it back up, so she knows how tough it
11 is.

12
13 A Chiampa said if they can't save the house she has a photographer with a view
14 camera who will document the house. The photographer is Gary Sampson with
15 many titles in the State of NH.

16
17 A. Chiampa went on to say she had contacted contractors who do disassembly or
18 restorations and she did have one that said they would come and take a look at the
19 structure and she also mentioned the NH Preservation Alliance, but again with the
20 owner's permission. But she did say the photographer is a definite that would do a
21 great job of preserving the structure.

22
23 R. Canuel asked A. Chiampa & S. Joudrey if there was anything in the house that
24 was historically significant to preserve that could possibly be salvaged from the
25 house, of course with the owner's permission. A. Chiampa said there was and
26 would love a chance to go back in.

27
28 A. Chiampa asked D. Fuller what he plans on doing with the house. D. Fuller
29 stated the house has been for sale for two years and has been very open about
30 someone coming in and renovating. All contractors and professional restoration
31 contractors will not touch it and there was a restoration cost of \$1.3 million. D.
32 Fuller went on to say they have already had monetary offers for the salvageable
33 parts of the house and have made verbal agreements.

34 D. Fuller went on to state there are some salvageable items such as the staircase
35 and the second floor fireplace, however, his father Calvin Fuller has also made

1 some commitments to people so he would have to consult with him.

2
3 D. Colglazier asked R. Canuel the opinion of the Board allowing demolition delay.
4 R. Canuel stated, as a Building Official, the structure is in very poor condition and
5 is surprised it's still standing. Just walking through the structure, it would be a
6 "re-build" not a "re-store". R. Canuel went on to say the committee and the owner
7 can meet after this public hearing to further discuss alternatives and find ways to
8 preserve the home, discuss resources to reach out to or even possibly Federal or
9 State grants to assist. R. Canuel stated he would be happy to sit in on any
10 meetings. Again, this would be a voluntary meeting with the owners.

11
12 A Chiampa asked D. Fuller if he would allow the photographer Gary Sampson to
13 come in and take picture in which D. Fuller was in agreement. A. Chiampa asked
14 when they would be demolishing the house and D. Fuller stated no set time. A.
15 Chiampa asked if someone offered the full price for the house, would they accept
16 in which D. Fuller said yes they would.

17
18 R. Canuel asked A. Chiampa to contact the photographer and ask when he's
19 available. He also asked Doug to contact him via email and he would provide the
20 contact information for Sue Joudrey Ann Chiampa & David Colglazier to set up a
21 meeting at the property.

22
23 **S. Joudrey, per the suggestion of R. Canuel, made a motion to allow**
24 **opportunity for committee members to meet with the property owner, on site**
25 **if need be, to discuss either photographing the property or salvaging parts of**
26 **the house. Second by R. Canuel.**

27
28 **Meeting adjourned at 7:35 pm**

29
30 Respectfully submitted,

31
32 Libby Canuel,
33 Administrative Assistant/Permit Tech.
