

LONDONDERRY UTILITIES COMMITTEE
ENERGY SUBCOMMITTEE MEETING AGENDA / MINUTES

August 14, 2023 – 3:00 PM

Leach Library

I. Call to Order

II. Public Comment

III. New Business

- a. Establish subcommittee priorities

IV. Old Business

- a. None

V. Adjournment

Minutes:

1. The meeting was called to order at 3:00 PM. In attendance were Mike Speltz, Joy Muller, Paul Ramsey, Lynn Wiles
2. Discussion:
 - a. The subcommittee discussed providing the Town Council and Town Manager with the recommendation that the Town of Londonderry support the Twin States Clean Energy Quebec hydro project. Due to the current number of unknowns with the project (i.e. federal funding availability, substation siting plans, engineering status), the subcommittee will not provide the guidance to either support or reject the project. The subcommittee does recommend that the Town continues to work with Twin States to receive periodic project updates as the project moves through the regulatory approval process. Lynn will put together a small slide deck describing the decision for subcommittee review and full committee approval.
 - b. The subcommittee discussed Community Power Aggregation and how to move forward with implementing such a program in Londonderry. Given the contract and terms currently in place with Freedom Energy Logistics / Colonial Power and given the overall business and regulatory insight provided by Paul Ramsey, the subcommittee is recommending that Londonderry move forward to implement a community wide program with FEL/Colonial. Lynn will work with Mike Malaguti to determine the next steps.
3. The meeting was adjourned at 4:45 PM
