

LIVABILITY

Londonderry is a special place – rich in history, with a wonderful natural environment, thriving agriculture, pleasant and safe neighborhoods, and so many enthusiastic people dedicated to bettering the community. These characteristics, categorized in this plan under “Livability,” are the features that we associate with home and quality of life.

However, perpetuation of these qualities is not guaranteed. Rather, we must continue to focus our attention on their enhancement. Whether that means encouragement, management, investment, or protection, our community must strive to maintain and improve Londonderry’s livability.

This section of the plan presents a series of recommendations designed to address the main issues presented to and discussed by the Master Plan Update Steering committee regarding the town’s “livability.” These concepts are not intended to be all encompassing but rather strategic recommendations based on priorities established through the Master Plan development process.
