Historic Properties Preservation Task Force Task Force Summary & Recommendations Report

Prepared by

The Londonderry Historic Properties Preservation Task Force:

Chair - Russ Lagueux (At-Large Member) Vice Chair - Chuck Tilgner (Planning Board) John Dahlfred (Historical Society) Deb Paul (At Large) Kay Webber (At Large) Art Rugg (Heritage Commission) Tom Dolan (Town Council, until March '07) Kathy Wagner (Town Council, after March '07) Steve Young (School Board)

Town Staff Support:

Andre Garron, AICP (Director of Planning & Economic Development) Tim Thompson, AICP (Town Planner) John Vogl (GIS Manager/Planner) Cathy Dirsa (Planning Department Secretary)

Updates & Amendments:

November 29, 2007 –	Removed 436 Mammoth Road from list of properties (Building gutted, completely modernized)
January 31, 2008 –	Removed 42 Litchfield Road from list of properties (Barn removed, building additions made structure non-qualifying)
March 27, 2008 –	Removed 564 Mammoth Road from list of properties (Owner request, property was borderline for initial inclusion)

Background:

The Historic Properties Preservation Task Force (HPPTF) was established by the Town Council on April 17, 2006, with the following charge:

"The Londonderry Historic Properties Preservation Taskforce shall exist to identify and develop a prioritized list of historic buildings and cultural resources that should be protected from demolition or development in order to preserve the Town's history and cultural character"

The HPPTF began meeting monthly in May of 2006, and spent the better portion of the past year:

- Developing definitions of historic structures and properties;
- Identifying potential properties in Londonderry that meet the definitions;
- Examining existing Londonderry preservation techniques (Historic District, state barn preservation program);
- Examining state and federal historic preservation resources;
- Reviewing other NH communities' historic district ordinances;
- Evaluating the list of over 200 parcels of land that met the initial parameters of the definitions
- Narrowing the list of parcels down to 141 homes/structures/sites and 85 barns;
- Holding a workshop with identified property owners and the public (attended by well over 100 people);
- And lastly, developing this summary report and recommendations to the Town Council, as spelled out in the Task Force "charge."

Development of Pertinent Definitions:

The HPPTF has developed the following definitions, to frame the discussion of properties potentially worthy of historic preservation.

<u>Historic Structure</u>: In the Town of Londonderry, a Historic Structure shall be defined as a structure meeting all of the following criteria:

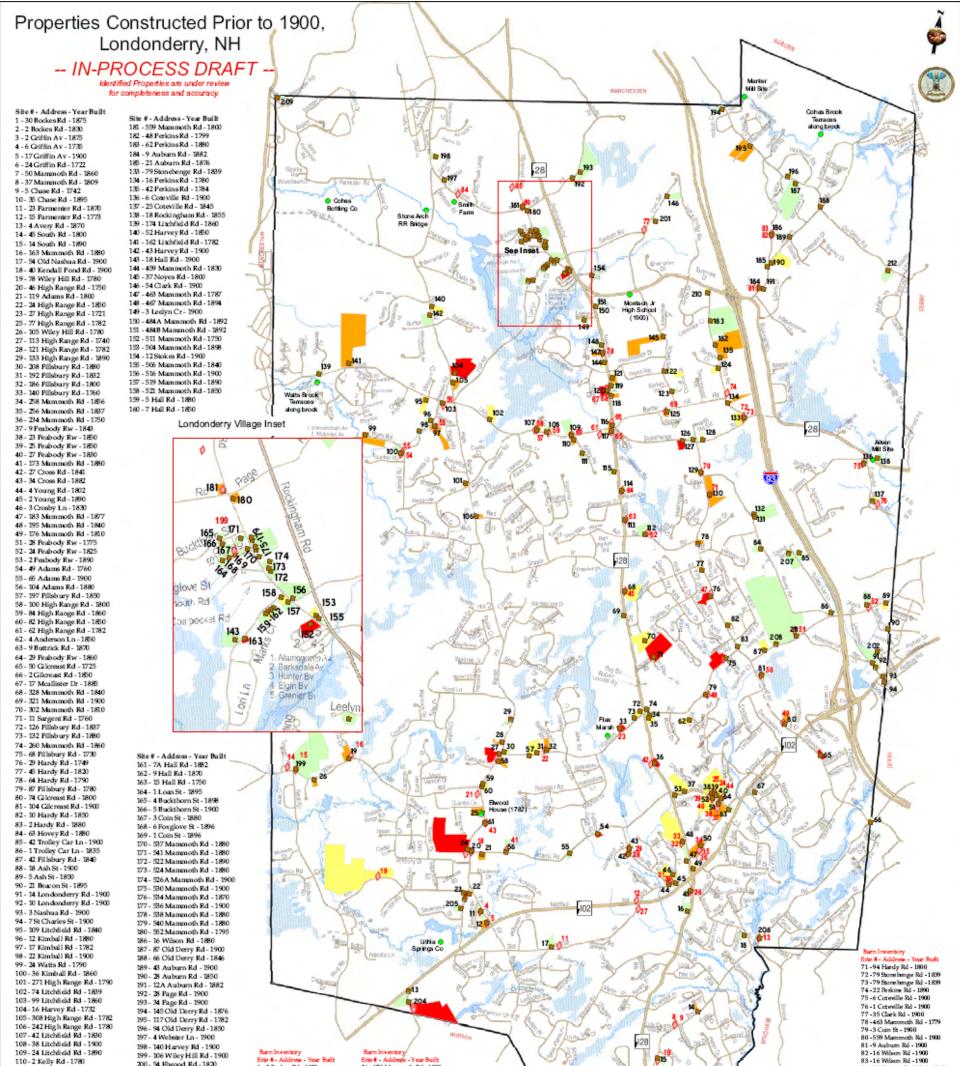

- 1. A structure 100 years or greater in age;
- 2. A structure that is a significant example of a particular historical period or architectural style (ie, Colonial, Federal, Victorian, New England "Connected Farmhouse" style, etc.)
- 3. A building whose original core structure must have retained a minimum of 75% of its original external features and be free of major external alterations and/or additions.
- 4. Structures which do not meet the above criteria may be defined as a historic structure if a determination is made by the Historic District Commission that the structure has unique historical value despite the criteria listed above.

<u>**Historic Site**</u>: A location, structure, or object having local, regional, statewide, or national historic significance set aside for no other purpose than to commemorate a historic event, activity, or person.

Identification of Potential Properties:

Utilizing the definitions above, the HPPTF and Town Staff utilized Assessing records to identify all properties in Londonderry that were at least 100 year old, in order to begin evaluation of properties against the other 3 criteria of the definition the task force developed. Over the course of 3 months, the task force narrowed the initial list of over 200 properties, down to a final list of 141 properties, by evaluating each property against the definitions, and through field investigations by members of the task force. The maps on the following pages illustrate the initial list, and the final list (with the addition of barns greater than 100 years old). Interspersed throughout this report are images of properties within the list of identified parcels.

Review of Existing Londonderry and other Preservation Techniques:

The HPPTF reviewed the following ordinances, regulations, and programs for use/reference as part of development of a protection strategy for Londonderry.

- Existing Londonderry Historic District Ordinance;
- Eagle Scout Project by Stephen J. Limongelli;
- State Department of Historic Resources programs (grants, State Register of Historic Places, etc.);
- National Register of Historic Places and other federal programs;
- SNHPC's Regional Environmental Planning Program information;
- NH Preservation Alliance information;
- RSA 79-D (Barn Preservation tax incentives)
- Historic District Ordinances/Regulations from Amherst, Bedford, Claremont, Concord, Danville, Exeter, Gilford, Goffstown, Windham, Hollis, Jaffrey, Lebanon, Manchester, Nashua, Newington, Portsmouth, Rochester, Rye, Somersworth, and Hillsborough.

Public Workshop Summary:

After working for several months on identifying parcels, the HPPTF held a public workshop on March 28, 2007 at the Londonderry Middle School. All 141 property owners from the selected parcels were notified of the workshop, as well as the general public. Below is a summary of the workshop and the results of public input.

Task Force Chairman Russ Lagueux called the Workshop to order and gave the audience a brief overview of the purpose of the Task Force, and the process followed to identify potential properties to

target for preservation.

Task Force Charter was reviewed and summarized for the audience.

The Task Force Progress so far was summarized:

- Reviewed status of laws/tools available for historic preservation
- Developed definition of "Historic Structure or Site"
- Compiled list of over 200 potential sites from existing records
- Reviewed each structure to determine status relative to definition
- Identified 141 eligible properties

Chair Lagueux explained the Town's current Historic District and stated that that the workshop would drive how the task force makes recommendations to the Town Council on other methods of preserving historic properties. Planning & Economic Development Director Andre Garron addressed the public and explained how the workshop process would work, and thanked everyone for participating. The meeting was then broken into 5 smaller groups to participate in the workshop.

The audience was broken up into small groups to answer the following questions:

- 1. What are the positive aspects of owning a historic property?
- 2. What are the negative aspects of owning a historic property?
- 3. What tools should the town consider using to insure historic character is maintained?
- 4. What incentives should be considered to make it easier to maintain a historic property?

Each group brain stormed answers to each of the 4 questions, and after each group presented their results, participants then voted on the top 5 issues they saw as being most important.

Workshop Voting Results:

IDEAS

- 19 Flexible zoning tools
- 14 Tax breaks (need state legislation)
- 12 Encourage re-use
- 9 Voluntary
- 8 As town roads are improved/widened, consideration given to stone walls & mature trees, landscaping
- 8 Inclusion of homes in book on historical properties in Londonderry
- 7 Lower assessment / relief for improvements
- 6 View shed
- 6 Recognition plaques on homes provided by town
- 5 Tax incentives/reduction
- 5 Help with resources / where to get information
- 5 Grant incentives to maintain period quality
- 4 Flexibility in regs & building code
- 4 Preserve history of house/property
- 4 Costs of preservation
- 4 Maintenance
- 4 Uncertainty over being able to opt-out
- 3 Incentives
- 3 Positive recognition for joining the district
- 3 Maintenance assistance
- 3 Incentives (non-tax), cable services, other financial type incentives
- 3 Any incentive created, should be transferable
- 3 Contractor network
- 3 On-line resources
- 2 Education
- 2 Rewards for maintaining houses
- 2 Freedom to opt-in & opt-out at any time
- 2 Reliable resource person/contact
- 2 Database in historic construction specialists
- 2 Zoning that could increase character of town
- 2 Purchase of development rights
- 2 Incentives to preserve exteriors
- 2 Home Depot cards/discounts
- 2 Apprentice program
- 2 Basement water, mold, radon, hazards
- 2 Proud to live in history
- 1 Preserving history
- 1 Tax incentives / assistance with improvement costs
- 1 List of contractors/resources (people who do historical restorations, foundations)
- 1 Provide historical info to assist in "how to maintain" / research assistance
- 1 Preserving heritage of community
- 1 Pride
- 1 Old pictures / historic reference (scapbook)
- 1 Encroaching development & traffic
- 1 Directory of qualified contractors for historic homes / perhaps website for home owners to share info
- 1 Less red tape for improving or restoring historic structures
- 1 Researching history of homes/property
- 1 Cost of maintenance
- 1 Building code flexibility

Task Force Recommendations:

Based on the work completed to date, the HPPTF recommends the following to the Town Council to implement the work of the task force:

Recommendation 1:

The Town Council should work with the State Legislative delegation to encourage the State

Legislature to create enabling legislation that allows for tax credits for Historic Structures; much like the enabling legislation to give tax credits for agricultural barn preservation (RSA 79-D). Such Tax Credits could go a long way, even more so than local ordinances and regulations, in encouraging owners of historic structures to preserve and maintain them in their historic character.

- **Recommendation 2:** The Town Council should direct the Planning Board to investigate and develop Zoning Ordinance Amendments that address the following issues:
 - Development of mechanisms in the Zoning Ordinance to allow for relief, when appropriate, from the dimensional requirements of the Zoning Ordinance for Historic Structures, recognizing that the vast majority of historic structures in Town were built long before Zoning, and that most currently require variances from the Zoning Board for any modifications to the structures.
 - Development of an overlay district, or other appropriate zoning technique, to allow for very light commercial re-use of historic structures in appropriate areas that are adjacent to commercial or industrial areas, or located along arterial roadways. Identification of which parcels are appropriate should be determined by the Planning Board, with recommendations from the Heritage/Historic District Commission.
 - Ensure that any proposed new ordinances or regulations are of an "opt-in" or voluntary basis for property owners. The Planning Board and Town Council should not force any new regulation or ordinance on property owners that do not wish to become part of the new overlay or zoning district.
- **Recommendation 3:** The Town should encourage the development of a *"resource/information clearinghouse" of information related to preservation and maintenance of historic properties. This should*

be a collaborative effort of the Heritage/Historic District Commission, the Historical Society, and property owners. Information should be easily accessible for residents interested in preservation, techniques, contact information for specialists in historic preservation/construction, etc. Information should be available in both printed form and available on the internet. **Recommendation 4:** This report should serve as the Town's catalog of historic structures and properties, and should be updated periodically by the Heritage/Historic District Commission. **Recommendation 5:** The Town Council should hold a follow up workshop to the workshop facilitated by the Taskforce in March 2007, inviting all potentially impacted property owners to discuss these proposed recommendations and to encourage participation of the property owners in the implementation of these recommendations. This workshop should be held before the Town Council begins implementing the recommendations of the Taskforce.
