12 13	Chairman Farrell called the Town Council special meeting to order and led the Pledge of Allegiance. This was followed by a moment of silence for those who serve us both here
14	and abroad.
15	
16	PUBLIC COMMENT
17	
18	The Town Council presented a Proclamation for an outstanding citizen. Andy Soucy is
19	retiring at the Londonderry High School Music Department Director. The Council read the
20	Proclamation out loud and presented Mr. Soucy with it. Mr. Soucy is known all over the United States for leading the Londonderry High School band to the Rose Bowl a few times.
21 22	Mr. Soucy said a few words and thanked the Council for the recognition.
23	1411. Bodey said a few words and diameter are estated for
24	Chairman Farrell introduced the presentation of a new School District building presented
25	by Bob Slater. How the Town can collaborate with the school and help the taxpayer. See
26	attached for the PowerPoint. Bob Slater, 1 Stonehenge Rd, presented his ideas to the
27	Council. Slater said that he has already give the School District and outline of the idea but
28	the School District voted not to pursue it at this time. The Town Council save a lot of money getting out of the ten-year lease.
29	money getting out of the ten-year lease.
30 31	PUBLIC HEARING
32	TODEIC HEARING
33	Motion to enter public hearing made by Vice Chairman Green and second by Councilor
34	Dolan. Chair votes 4-0-0.

		\$1,346,988.17 - \$1,476,940.29	\$260,565.00	\$407,000.00

1. The variance in the yearly lease amount is the annual increase allowed per year, at a minimum of 2% and a maximum of 4%. A

2. The property taxes are estimated. Based on a tax rate of \$21.61. Chances are the total paid in 10 years will be higher than the estimate. I feel the estimate is conservative. 3. The total fit up fee of \$407,000.00 is to be paid, regardless of the length of the lease. The balance owed becomes due in full if the lease is ended early.

three years, and building a new SAU building on the old Below are numbers based on keeping the lease for only building's site: 1) Savings on lease payments years 4 thru 10- \$970,510.76 - \$1,092,934.32.

\* Lease may be terminated for convenience at any time with an 8 month notice.

2) Savings on property tax payments year 4 thru 10 - \$191,695.00.

then the taxes are paid by a different entity resulting in more money to the town and school which is town's pocket, and then the school gets a portion back, but if the school isn't leasing the property, When the school is leasing the building, the taxes get paid out of their pocket, go into the the reason it is being included as a savings.

3) Penalty- Security Deposit of \$13,642.98 may be kept by the Landlord.

4) Penalty- 7 years of realtor's commission \$28,000.00 (\$4,000 per year).

The previous slide shows a savings of approximately \$1.2 Million that could be used towards building the new SAU Office. A

of over 2 Million in savings, if the town is willing, and able, to build Approximately another \$811,000.00 in interest savings\* for a total it without a bond, or with a smaller bond amount for any excess cost above the 2.5 million. A

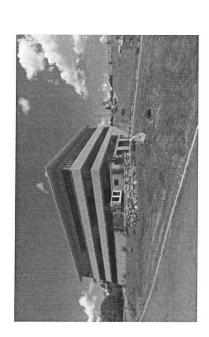

This savings would possibly pay for 1/2 to 2/3 of the cost of the new building. A

 $^{st}$  based on a bond amount of 2.5 million for a 20 year term @ current interest rate.

## the town build a new Benefits to having SAU Office soon.

1) The rental of the Kitty Hawk property is just a temporary fix. We would still need to build a new building in the future. Every year sooner that we can end the lease results in more money that can go towards the building of the new office (an asset for the town/school), rather than spent on À

the SAU Office on. This could result in having to buy and develop a piece 2) If we wait, the town/school may not have a piece of property to build of land. This would add on substantial costs to the price of building the SAU office. A

- and school board which would allow for them to continue to focus 3) If the Town is willing to build it for the School, this would take the majority of the work involved away from the superintendent on their current concerns. A
- continue to rise. There is little chance that it would be cheaper to build in the future than it is now. 4) Chances are costs of building and interest rates are going to À
- 5) The funds that are available now may not be available in the future, which would result in having to get a bond for the full amount, rather than partial. A
- Building is greater now as the taxpayers would appreciate the cost savings of doing it in the next few years versus later, if these savings are explained to them. Who wouldn't want 1/2 to 2/3 of the building paid for? 6) The chance of getting a warrant article passed for a new SAU A
